

Redmine - Feature #4398

Author Issue-filter only contains members even when non-members have 'create issue' permission

History

#1 - 2009-12-29 15:56 - Jean-Philippe Lang

We can not list all users in this field, we need to change this filter to an auto-complete field first.

Agreed! :)

#3 - 2010-01-18 13:39 - Nick Fitzgerald

+1

Just discovered this issue myself.

#4 - 2010-10-25 17:03 - Eric Davis

- Assignee deleted (Eric Davis)

#5 - 2011-05-30 10:46 - Etienne Massip

- Target version set to Candidate for next major release

#6 - 2013-07-02 00:01 - Gabriel Mazetto

Any update on this? We should consider it a defect rather than a feature... as the expected behaviour is currently not being matched by the actual code.

#7 - 2015-11-02 14:23 - Toshi MARUYAMA

- Status changed from New to Closed
- Target version deleted (Candidate for next major release)
- Resolution set to Duplicate

I close as duplicate of #4398.

```

Sorry, it is #1875.

#9 - 2015-11-02 14:23 - Toshi MARUYAMA

- Duplicates Feature #1875: Issue filtering on author only uses members of project added

#10 - 2015-11-13 04:45 - Alexey Poliansky

```
173c177,183
< author_values += users.collect{|s| [s.name, s.id.to_s] }
---
> if project
>   project.issues.group(:author_id).each{|i| author_values << [i.author.name, i.author_id.to_s]}
>   else
>   author_values += users.collect{|s| [s.name, s.id.to_s] }
>   end
```

Add only authors to filter list, if necessary.
not contain subprojects yet, but it's also possible

#11 - 2015-11-15 08:20 - Alexey Poliansky

I select all authors from issues in last half of year and preload authors objects

```
173c174,182
< author_values += users.collect{|s| [s.name, s.id.to_s] }
---
> if project
>   time_range = (Time.now - (3600*24*180))..(Time.now)
>   author_values += project.issues.where(issues: { created_on: time_range }).group(:author_id).preload(:author).collect{|s| [s.author.name,
s.author_id.to_s]}
>   author_values.sort!
>   else
>   author_values += users.collect{|s| [s.name, s.id.to_s] }
>   end
```

works fast and useful for control workflow projects
