

## Redmine - Defect #4408

### Huge dropdown kills browser: dropdown for username in Project Settings -> Members -> add member

2009-12-15 22:38 - Beat

<b>Status:</b>	Closed	<b>Start date:</b>	2009-12-15
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	Projects	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Affected version:</b>	0.8.7
<b>Resolution:</b>	Duplicate		
<b>Description</b>			
<h3>Description</h3>			
<p>On our redmine forge of our open-source project we have now over 72'000 users auto-registered. We can't assign users anymore to projects without doing it directly in the database in the members table:</p> <p>Reason is that the Username selection drop-down list to add a user with a role to a project has over 72'000 entries, and that crashes any reasonable browser.</p>			
<b>To reproduce bug:</b>			
<ol style="list-style-type: none"><li>1. create a project</li><li>2. create 100'000 active users in the database</li><li>3. then go to the project -&gt; Settings tab -&gt; Members sub-tab</li><li>4. then try adding one of the 100'000 users to the project using the drop-down</li></ol> <p>Safari and Firefox will be blocked for hours (didn't try to wait more than 3 hours, just killed it).</p>			
<b>Suggested fix</b>			
<p>Probably an auto-complete field for username selection, instead of a drop-down when there are over let's say 200 members would make sense, similar to this similar fixed issue: #3350</p>
