

Redmine - Patch #4572

Make it harder to ruin your database

2010-01-13 15:55 - Alexey Palazhchenko

Status:	Closed	Start date:	2010-01-13
Priority:	Normal	Due date:	
Assignee:	Eric Davis	% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:	1.0.0 (RC)		
Description New Rails apps have ENV["RAILS_ENV"] = "test" in test_helper.rb. You have ENV["RAILS_ENV"] = "test" Good I have backups. :) Please add this line: abort "Preventing you from running tests in '#{ENV["RAILS_ENV"]}' environment." unless ENV["RAILS_ENV"] =~ /^test/

- Assignee set to Eric Davis
- Target version set to 1.0.0 (RC)
- % Done changed from 0 to 100

I've updated test_helper.rb in [r3840](#) to force the test environment.

#2 - 2010-07-09 20:46 - Alexey Palazhchenko

- Status changed from Closed to Reopened
- % Done changed from 100 to 50

Eric, I think you forgot about test_pgsq and test_sqlite3... That's why I'm regexp.

I don't like having those extra environments and want to remove them in a future version.

Does this mean that in a future version Redmine support mysql only?

Definitely not. MySQL, PostgreSQL and SQLite3 will be supported in foreseeable future.

Not at all, only that I'd like to remove the duplicate test environments in the future. I run my Redmine on Postgres, I have clients running on MySQL and Postgres, and I use SQLite3 for testing.
