

Redmine - Defect #4600

Issue list export to PDF - NoMethodError (undefined method `cf\_3' for #XXXX) when issues sorted by a custom field

2010-01-18 17:58 - Andrew Leaf

Status:	Closed	Start date:	2010-01-18
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:	0.9.1	Affected version:	0.9.0
Resolution:	Fixed		

**Description**

When attempting to export issues to a PDF that are sorted by a custom field, an Internal 500 Server error is displayed to the user. The production.log shows that an undefined method being the cause.

Environment -

Found in RC1 0.9, Ruby 1.8.6, Rails 2.3.5, Rack 1.0.1, mysql  
User language is English.

Steps to reproduce -

1. Install RC 1 of 0.9 from RubyForge
2. Create several issues
3. Create a custom field
4. View the issue list
5. Group the results by that custom field
6. Export the issue list to PDF
7. Observe the Internal server 500 error is displayed to the user

Note - Log file excerpted below.

Expected Result -

User should be able to export issues to PDF when grouped by a custom field.

```

## Associated revisions

---

### Revision 3333 - 2010-01-18 19:00 - Jean-Philippe Lang

Fixed: PDF export of a issue list grouped by a custom field raises an error (#4600).

## History

---

### #1 - 2010-01-18 18:00 - Andrew Leaf

Original description and bug subject should have used the word "Grouped" and not "sorted".

The problem is with grouping.

### #2 - 2010-01-18 18:53 - Jean-Philippe Lang

- *Status changed from New to Closed*

- *Target version set to 0.9.1*

- *Resolution set to Fixed*

Fixed in [r3333](#).
