<b>Description</b>			
I get this message when running reposman.rb:			
DEPRECATION WARNING: require "activeresource" is deprecated and will be removed in Rails 3. Use require "active_resource" instead.. (called from /usr/lib/ruby/gems/1.8/gems/activeresource-2.3.5/lib/activeresource.rb:2)			
Redmine version 0.9.1 Ruby 1.8.7 Rails 2.3.5 Rake 1.0.1 Database: MySQL 5.0			
I could solve the problem by replacing line 178 in extra/svn/reposman.rb require 'activeresource' to require 'active_resource'
