Description	
<p>Isn't there method of permuting custom-field? (Maybe 'Administration - Custom fields' is best place) Or make multi-selectable List / boolean array(checkbox list). I hope to use it 'platform environment'. ex. Win2k/XP/Vista/XP64/Vista64/...</p> <p>Maybe current custom-field is sort by create time. So add/insert another custom-field, order become bad.</p>

Thanks for your job.
and Thank you for quick correspondence.

I check it and work fine!

#2 - 2007-11-12 12:24 - Jean-Philippe Lang

As of r901, custom fields can be reordered.
