

## Redmine - Patch #4800

### Ability to add search providers from plugins

2010-02-11 09:19 - Andrew Chaika

<b>Description</b>	
<p>When I was trying to upgrade Redmine Blogs plugin to 0.9.x Redmine and to implement an activity and a search providers I have found that the search engine (<i>acts_as_searcheable</i>, <i>search_controller</i>) in Redmine has hard-coded list of search providers/types without ability to add a new providers/types.</p> <p>Thus I found that the activity/event/search subsystems are project dependent. In activity/event I have found workaround, but in search don't.</p> <p>I have patched <i>acts_as_searchable.rb</i> and <i>search_controller.rb</i> to solve described problem.</p> <p>Eric,</p> <p>Could you review the patch and if it's OK apply it to the core?</p>

### History

#### #1 - 2010-02-12 21:03 - Andrew Chaika

There is a similar issue #3936.

#### #2 - 2010-02-17 16:04 - Andrew Chaika

- Assignee changed from Eric Davis to Jean-Philippe Lang

Jean-Philippe, or anyone from the core developers team, could you review this patch and say what additionally I must do to bring such functionality to the Redmine code?

#### #3 - 2010-02-17 20:25 - Jean-Philippe Lang

It breaks a test:

1) Failure:

```
test_search_for_projects(SearchControllerTest) [/test/functional/search_controller_test.rb:28]:  
<false> is not true.
```

I'll have a deeper look asap.

#### #4 - 2010-02-17 20:28 - Jean-Philippe Lang

Another point about your patch, searchable types order depends on models loading order.  
The search form is kind of messed up.

**#5 - 2010-12-21 05:58 - Mischa The Evil**

- Status changed from New to Closed
- Assignee deleted (Jean-Philippe Lang)

Closed the issue as being implemented by issue #3936.
