Redmine - Patch #4822

Version cannot be added from issue without existing versions

2010-02-12 18:01 - Christopher Hlubek

Status:	New	**Start date:**	2010-02-12
Priority:	Normal	**Due date:**	
Assignee:		**% Done:**	0%
Category:	UI	**Estimated time:**	0.00 hour
Target version:			

Description

There seems to be a problem with the ability to add versions from the issue form when there are no versions yet: the field and icon will not be shown. This is only a minor issue but it is somewhat irritating.

For a quick fix see the attached patch. With the patch the issue form will always show the version select if there are versions available or the user may add a new version.
