History

#1 - 2010-03-30 15:10 - Yuki Kita

- File *timelog_controller.rb.diff* added

Confirmed

And I noticed that "Last 30 days" filter displays 31 days.

Here is the patch.

#2 - 2013-01-14 14:21 - Daniel Felix

- File *timelog_criteria.png* added

- Status changed from *New* to *Confirmed*

- Affected version (unused) changed from 0.9.2 to 2.2.1

- Affected version changed from 0.9.2 to 2.2.1

The patch won't apply cleanly, as the corresponding code is completely rewritten.

But I'm still able to reproduce this (see attachment).

#3 - 2013-02-14 08:35 - mcfedr mcfedr

- File *Screen Shot 2013-02-13 at 18.21.25.png* added

Noticed this same problem on the latest redmine - It was telling me i have worked 48 hours in the last week!

#4 - 2016-12-23 10:26 - Go MAEDA

- File *spent-time-filter-r16111.png* added

- Subject changed from *In project report "Last 7 days" filter displays 8 days* to *"In the past N days" filter displays N+1 days*

"In the past N days" filter in Current trunk (r16111) has the same behavior.
Not only spent time filter but also issues filter has the same behavior.
