<b>Description</b> I wrote some plugins to extend issues template. And also using email to create and update issues. Is it possible to add some hook in mail handler, which I can do more custom work to create and update issues through email.	
<b>Related issues:</b> Is duplicate of Redmine - Feature #24266: Receiving email by mail_handler.rb ... <b>New</b>	

### History

- Status changed from New to Closed

- Resolution set to Invalid

Yes, we can add more hooks but we need to know where. Add the hooks to your Redmine, create a patch file, and open a new Patch issue so we can review the changes.
