

## Redmine - Defect #5064

### Garbled or unsupported characters in PDF output (utf-8)

2010-03-12 19:20 - David Sedlar

<b>Status:</b> Closed	<b>Start date:</b> 2010-03-12
<b>Priority:</b> Normal	<b>Due date:</b>
<b>Assignee:</b>	<b>% Done:</b> 0%
<b>Category:</b>	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b>	<b>Affected version:</b> 0.9.3
<b>Resolution:</b> Duplicate	
<b>Description</b>	
<p>I am using Redmine 0.9.3 with the Slovenian language template (sl.ylm) and have set the two setting to this:</p> <pre>general_csv_encoding: UTF-8 general_pdf_encoding: UTF-8</pre> <p>However I still get garbled characters which should be supported and display correctly in Redmine. Even if I switch to the default English template with the above two settings changed I still get the same result.</p> <p>I have added two screen shots and an example of my PDF output.</p> <p>It seems like the PDF is not correctly reading or rendering the utf-8 content.</p>

#### History

##### #1 - 2010-03-12 19:28 - David Sedlar

Forgot to mention, the collation I'm using for MySQL database is utf8\_slovenian\_ci (Slovenian case-insensitive).

##### #2 - 2010-03-12 20:08 - Jean-Philippe Lang

- Status changed from New to Closed

- Resolution set to Duplicate

Already reported multiple times, see #61.
