

Redmine - Feature #5084

Filter all issues by projects

2010-03-15 16:21 - Curtis Stewart

Status:	Closed	Start date:

Category:	Issues	Estimated time:	0.00 hour
Target version:	1.0.1		
Resolution:	Fixed		
Description			
<p>As we get more projects into our Redmine, I have found it harder to get a list of issues only in projects that I am interested in. Would it be possible to add a filter by project, similar to the filter by tracker, or if that is not reasonable, how about a filter by "My Projects" similar to the search options. This would only be useful at the "View All Issues". There is a subproject filter on a parent project, so this is the type of filter I am looking for.</p> <p>Thanks for your help and the development of such a useful application.</p>

This has also solved the request of (duplicated) feature request #1963. Updated and related that one according to this issue.

@JBB: Thanks for fixing this issue... :)
