

## Redmine - Feature #5140

### email notification when related blocking issues get closed

2010-03-21 17:31 - Manmathan Kumar

<b>Resolution:</b>			
<b>Description</b> First of all I would like to thank you very much for creating and maintaining such a wonderful software.  Will it be possible to get email notification when related blocking issues change status to closed?			
<b>Related issues:</b> Related to Redmine - Feature #4985: Filter issues which are blocked <b>Closed</b> <b>2010-03-04</b>			

#### History

##### #1 - 2010-03-22 13:42 - Shilkumar Nag

This is closed now

##### #2 - 2010-03-22 13:43 - Shilkumar Nag

Sorry its reopened as per the request

##### #3 - 2010-09-14 16:08 - Fernando Hartmann

To my needs all the related issues, not only for the blockers, need to be notified.  
I my opinion, if a "related issue" is closed all the watcher need to now.  
+1

+1

Bugzilla (the last tracker system I used) did this, it helps to keep the initiative going, but might be replaceable by whine-emails with blocked items filtered-out.

##### #7 - 2011-09-10 20:24 - Robert Hailey

I thought of a painless way to implement this, rather than bothering with a new class of email notification (or the like) simply...

1. Add a new config option:
  1. "Related Status Notification"
  1. None
  2. Blocked Issues (Default)
  3. All Relationships
2. On updating the status of a ticket:
  1. Trigger an 'update' to it's related issues, to add the following quasi-formated string to the related tickets: "#relationship #ticket-link-number-summary **is now** #new-status"

There is already a framework in place to send notification messages, and as a bonus reading the related tickets will have an easily perceived timeline effect (opened on this date, comment, unblocked, solved).

+1 to Robert's idea of implementation. Even if this were implemented as a plugin, this functionality is quite important for productivity.

**#10 - 2016-07-27 13:55 - Fridolin Tam**

Still no way to get a notification when a related ticket got closed? That was super nice..

Greetings,  
Fridolin

Do we have any option for triggers? I need RM to act like shown below sample and I trying to find solution for that. Anyone has a solution how to activate triggers for that?

Example:

1. Issue No. 1 blocks Issue No. 2
2. When Issue No. 1 is 100% done, or status changed for Finish (all types) then:
  - a) Issue No. 2 changes its status for example from suspended to new - (automatic E-mail notification to users)
  - b) or Redmine sends E-mail notification that blocking Issue No. 1 is finished or has 100%
  - c) or Issue No. 2 gives E-mail notification to users as it is doing when issue is created.

Best Regards

Maybe no one is currently working on this issue. If someone writes a patch to implement this feature, there will be a possibility of being merged into Redmine core.
