

Redmine - Defect #5145

logout not working

2010-03-22 11:00 - Radek Antoniuk

Status:	Closed	Start date:	2010-03-22
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Affected version:	0.9.3
Resolution:	Cant reproduce		
Description			
hey,			
i've just set up a new redmine instance in Debian.			
My previous instance is working fine, but this one has a weird problem, i.e. the logout does not work.			
When I click logout, it says, the user has been logged out, but when I go then to /users by hand, I am still logged in.			
Anyone had that problem?

#2 - 2010-03-22 11:36 - Radek Antoniuk

This problem is quite interesting.

I have created a second admin user. Now. If I logout, and login as the second user and go to the Main tab, I can see user2. If I click to administration, I can see that I am logged in still as User1.

Some kind of cleaning up sessions problem or what?

#3 - 2010-03-23 12:01 - Radek Antoniuk

Ok, I've identified the problem to exist while using :8080 virtualhost.

When I have switched to the Alias version, it all works perfectly fine.

#4 - 2010-06-13 21:12 - Jean-Baptiste Barth

- Priority changed from Urgent to Normal

Any cache at Apache level ? I cannot reproduce, don't think it's strictly a redmine problem.. Can we consider the ticket as resolved ?

#5 - 2010-07-12 22:20 - Felix Schäfer

- Status changed from New to Closed

- Resolution set to Cant reproduce

Considering closed.
