#### Description

We have migrated from version 0.8.4 to 0.9.3 and that some users are not shown in project setting --> member --> new member. Checking div (principals) contents gives me a gap of ids from 88 to 133.

But if I use the text box and start to typ in the name its shown in the list.

#### History

##### #1 - 2010-04-07 14:40 - Felix Schäfer

Might it be that these users are already member of the project?

##### #2 - 2010-04-07 14:43 - Klas Germunder

No there not members of the current project. if they where they should not appear when typing some of the name in the text box.

##### #3 - 2010-04-11 19:48 - Jean-Philippe Lang

- Status changed from New to Closed

- Resolution set to Invalid

This is the desired behaviour, the list will display a maximum of 100 users. You have to type their name in the text field so that they show up.

##### #4 - 2010-04-12 21:15 - Michael Koch

is there a way around this? or does the system overload at 100 users?
