

Redmine - Feature #538

Issue Numbering is not respecting projects

Description	
It would be much better if the Numbering of the Issues would respect projects. i.e. 12-1234 or 12/1234 Project 12 Number 1234.	
It would increase the visibility of the amount of issues per project

- Status changed from New to Closed
- Resolution set to Wont fix

Since issues can be moved between projects, a unique sequence is much more convenient.

The [ISSUE-id](#) plugin implements PROJECT_KEY-122 numbering in addition to the standard one. Please try (if you still want it).
