Redmine - Defect #5401

500 internal error when browsing any Redmine page in epiphany

2010-04-29 13:35 - Chris Cannam

Status:	Closed		**Start date:**	2010-04-29
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:			**Estimated time:**	0.00 hour
Target version:	0.9.4			
Resolution:	Fixed		**Affected version:**	0.9.3

Description

I get a 500 Internal Error when trying to load any Redmine page (including e.g. the home page or demo instance at redmine.org) in Epiphany 2.30 (current Arch Linux version). Epiphany appears to be sending something unexpected in HTTP_ACCEPT_LANGUAGE.

Patch attached -- tested against 0.9 in my own Redmine instance, but the code appears to be the same in trunk.

Associated revisions

Revision 3702 - 2010-04-30 12:33 - Jean-Philippe Lang

Fixed: 500 internal error when browsing any Redmine page in Epiphany (#5401).
