

Redmine - Patch #5438

Patch repairing rendering of subtasks in gantt diagram

2010-05-04 15:44 - Jarek Nowisz

Status:	Closed	Start date:	2010-05-04
Priority:	Normal	Due date:	2010-05-04
Assignee:		% Done:	0%
Category:	Gantt	Estimated time:	0.00 hour
Target version:			
Description			
There is a bug in r3733 in sorting algorithm. It doesn't sort well when you define tasks and subtasks with the same start dates. For example if all tasks and subtask have the same start date, then tasks and subtasks won't be sorted. Attached simple two-liner repairs this bug.

History

#1 - 2010-08-05 08:14 - Sepp _

Tested. Works

#2 - 2010-08-07 00:44 - Yuki Kita

+1

This patch works fine.

And it also fixes [#5194](#), [#5881](#), [#5989](#).

Many people want these defects to be fixed.

So, the patch should be included in 1.0.1.

The patch is so simple that I think it will not make any trouble.

#3 - 2010-08-11 08:40 - Sepp _

No, it is not resolved!

After further testing, redmine stable svn from today still shows subtasks in the gantt, where no subtasks are!

#4 - 2010-10-03 15:03 - Mischa The Evil

- *Category set to Gantt*

#5 - 2010-10-14 14:28 - Damien Couderc

Works for me.

This fix should be merged ASAP to see if it fixes issues for everyone.

#6 - 2011-03-23 15:05 - Cassiano Monteiro

+1

#7 - 2012-10-23 14:04 - Toshi MARUYAMA

- *Description updated*

#8 - 2012-10-23 14:10 - Toshi MARUYAMA

- *Status changed from New to Closed*

Gantt was refactored in [#6276](#).

So, this issue is obsolete.
