Description				
Localization of tooltips in public/javascripts/jstoolbar.js				

History

#1 - 2008-01-15 07:24 - Alex Aktion

I second. Russian translation fully mixed with englush words
looks bizzare.

#2 - 2008-01-17 13:41 - Jean-Philippe Lang

The toolbar can now be localized (r1074).
Only english and french translations are actually done.
You'll find the lang files in public/javascripts/jstoolbar/lang.
Please post your russian translation so that I can add it to
the repository.
