

Redmine - Feature #5572

Build search queries in the address bar

2010-05-21 20:35 - Jeff Wallace

Status:	New	Start date:	2010-05-21
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Search engine	Estimated time:	0.00 hour
Target version:			
Resolution:			
Description			
<p>Currently if you build up a complex query (ie with multiple filters) and then view an issue from the query, upon pressing the browser back button the query is lost.</p>
