Category:	UI		**Estimated time:**	0.00 hour
Target version:				
Resolution:				

Description

It would be nice to be able to share links of specific views of activity reports (different periods, criteria, criteria order).

The URL of this page remains '/time_entries/report' or at best with '/time_entries/report?period=<some period>', while the complete report URL is used in the HTTP request.

The URL could be updated as criteria are added, or there could be a 'Link to this report' link or text box to copy/paste from (like in google maps for example).

History

#1 - 2013-09-20 14:54 - Frédéric Moulins

- Status changed from New to Resolved

This is possible with the 2.3-stable branch I am running now. And equally possible with the report or the detailed view.

This feature request could be closed.
