

Redmine - Defect #5723

Error db:migrate with rails=2.3.8

2010-06-22 13:40 - Mike Stupalov

Status:	Closed	Start date:	2010-06-22
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Database	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Invalid		
Description			
I use environment:			
<pre>Ruby version 1.8.7 (amd64-freebsd8) RubyGems version 1.3.7 Rack version 1.1 Rails version 2.3.8 Active Record version 2.3.8 Active Resource version 2.3.8 Action Mailer version 2.3.8 Active Support version 2.3.8 Application root /usr/local/www/redmine Environment production Database adapter postgresql Database schema version 20100323105501</pre>			
At initial installation of base (db:migrate) there was an error:			
<pre>\$ RAILS_ENV=production rake db:migrate (in /usr/local/www/redmine) ...(skipped lines) == CreateWikis: migrating ===== -- create_table(:wikis) NOTICE: CREATE TABLE will create implicit sequence "wikis_id_seq" for serial column "wikis.id" NOTICE: CREATE TABLE / PRIMARY KEY will create implicit index "wikis_pkey" for table "wikis" -> 0.0137s -- add_index(:wikis, :project_id, {:name=>:wikis_project_id}) rake aborted! An error has occurred, this and all later migrations canceled: undefined method `length' for :wikis_project_id:Symbol (See full trace by running task with --trace)</pre>			
I have viewed a code of creation of base and have found syntax errors in add_index and remove_index. Options ":name" are specified with a colon, and there should be commas:			
<pre>- add_index :wikis, :project_id, :name => :wikis_project_id + add_index :wikis, :project_id, :name => "wikis_project_id"</pre>			
(As it is written in documentation Class ActiveRecord::Migration)

History

#1 - 2010-06-23 00:45 - Felix Schäfer

Rails 2.3.8 is unsupported as of zet, keeping open for the time we do though.

#2 - 2010-12-27 12:32 - Torgny Nyblom

- File *0001-Make-sure-name-in-enclosed-in-quotation-marks.patch* added

Updated patch that covers the destruction as well as the creation of the db.

#3 - 2011-12-20 10:17 - Etienne Massip

- Status changed from *New* to *Closed*

- Resolution set to *Invalid*

Rails issue fixed with 2.3.10 (<https://github.com/rails/rails/commit/8b8730e1390963a8bb3a231ed1a324862d3dc4cf>).
