

Redmine - Feature #5754

Allow addition of watchers via bulk edit context menu

Target version:	3.3.0		
Resolution:	Fixed		
Description			
Currently, it does not seem possible to add new watchers via the bulk edit context menu. This means if you want/need to add someone as a watcher to 100+ tickets, you have to go through and add them manually. Please add the ability to assign watchers via the bulk edit menu.

I agree. Suscribing a new person to the list of issues she must watch, one by one, is a pain.

Please add this feature. I just had to explain to one of our users that he had no choice but to individually visit 60+ issue tickets and click on "watch".
