This change fixes some issues with overlapping code boxes too.

A different approach is proposed in [#12031](). I prefer this simpler change though...

#4 - 2015-07-12 07:02 - Mischa The Evil

- Target version set to 3.1.0

Is this a patch that we can still target to 3.1.0? I don't know "how frozen" 3.1-stable is at the moment.
Nevertheless, I think this could be considered a defect, marking this (small) patch a candidate for a future >= 3.1.1 release anyway.

A second look at it shows me that it does more than adding a div alone - with the wrong class also, box does not fix the formatting issues that rise when a "pre" block and/or a "pre code" block is being used in the welcome text (wiki class *does* fix these) - and these changes were found unrelated/unwanted ([#12031#note-2]()).
As such, I'd propose to close issue [#12031]() in favor of the patch proposed in this patch (which, I think, will also fix the issue that the OP of #12031 was intending to patch initially).

#5 - 2015-07-24 06:09 - Jean-Philippe Lang

- Category set to Text formatting

- Status changed from New to Closed

- Assignee set to Jean-Philippe Lang

Patch committed.

#6 - 2015-07-25 06:36 - Mischa The Evil

Thanks!
