

## Redmine - Defect #5778

### Defect in the filters (custom field) from the list of issue

2010-06-29 15:56 - Jose Luis Muñoz Suarez

<b>Status:</b>	Closed	<b>Start date:</b>	2010-06-28
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>	Jean-Baptiste Barth	<b>% Done:</b>	0%
<b>Category:</b>	Custom fields	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Affected version:</b>	0.9.4
<b>Resolution:</b>	Fixed		
<b>Description</b>			
When you add a numeric custom field as a filter on issues list the "select" of possible operators is not correct because it assumes that the filter is a string.

### History

#### #1 - 2010-06-30 19:54 - Jean-Baptiste Barth

- *Category set to Custom fields*
- *Status changed from New to 7*
- *Assignee set to Jean-Baptiste Barth*

Confirmed, thank you for reporting.  
I'll work on a patch with some tests.

#### #2 - 2010-07-03 00:01 - Yuki Kita

- *File custom\_field\_filter.patch added*

Here is the patch.

This issue seems to be the duplicate of #5726.  
So the patch also fixes #5726.

#### #3 - 2010-07-03 19:10 - Jean-Baptiste Barth

Haha, I had the same patch, exactly :) I was trying to write some tests because this part is not very well tested I think. Maybe later, thanks Yuki.

#### #4 - 2011-01-26 12:04 - Siegfried Vogel

I'm having the same problem with filtering issues by a "list" custom field.  
I get an "internal error" after applying the filter.  
The patch failed to install, so I did edit the both files manually.  
After the patch, I still had the same problem.

Is there a newer patch or solution for my environment:  
(Redmine V.1.1.0, MySQL 5.1, Ubuntu)

**#5 - 2011-01-26 16:00 - Siegfried Vogel**

After some searching, I found the culprit in my case: The Question Plugin, V.0.3.0.  
See this Issue: #4788

The patch provided there did the trick for me in Redmine V.1.1.0, MySQL 5.1.x

**#6 - 2011-11-11 14:34 - Jean-Philippe Lang**

- *Status changed from 7 to Closed*
- *Resolution set to Fixed*

Fixed a few months ago in r6228 and r6256.
