

## Redmine - Patch #5790

### Save year\_from and month\_from in the ganttchart

2010-06-30 23:06 - Yuki Kita

<b>Status:</b>	New	<b>Start date:</b>	2010-06-30
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	Gantt	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>			
<b>Description</b>			
It would be nice to save year_from and month_from in the ganttchart so that it is not necessary for users to reset them every time. Now zoom and months are saved but year_from and month_from are not saved. This behavior is not user friendly.

### History

#### #1 - 2010-10-03 15:14 - Mischa The Evil

- Category changed from UI to Gantt

#### #2 - 2014-04-22 12:41 - Toshi MARUYAMA

- Related to Feature #9296: User preference for storing offset of month in Gantt added

#### #3 - 2017-01-03 06:50 - roy yeh

```
if User.current.logged? && (Bruno Basanta != pref[:gantt_zoom] || @months != pref[:gantt_months] || @month_from != pref[:gantt_month] || @year_from != pref[:year_from])
```

typo 'year\_from' should be replaced by 'gantt\_year'

#### #4 - 2018-12-05 09:18 - Sunding Wei

Thanks to Yuki Kita, I fixed the path which applies to Redmine v3.4.4.stable
