Target version:			
Resolution:		**Affected version:**	0.9.4

Description

There's an issue copying projects.
If the source project have a member with several roles, and the FIRST one is assigned from a group, and others roles are assigned to him individually, the occurs that copied project:
1. Doesn't mantain all roles, ones assigned manually are lost.
2. The project lost project-parent, and it's stored as root one.
