Redmine - Defect #5871

Hard coded English strings in Wiki

2010-07-12 17:02 - Yuki Kita

Status:	Confirmed		**Start date:**	2010-07-12
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	UI		**Estimated time:**	0.00 hour
Target version:				
Resolution:			**Affected version:**	

Description

When we add a link to some repository files in wiki, we write like this.

```
source:some/file
export:some/file
```

And the display is the same as the wiki format.

```
source:some/file
export:some/file
```

So hard coded Englist strings ("source", "export") are displayed.
it is confusing for me.

History

#1 - 2010-07-12 17:03 - Yuki Kita

- File application_helper.rb.diff added

Fixed.

#2 - 2013-01-15 09:17 - Daniel Felix

- Status changed from New to Confirmed

Hi,

any news on this? Should this be implemented? In the current codebase this still seems to be hardcoded.

Best regards,
Daniel
