Category:	Text formatting	Estimated time:	0.00 hour
Target version:			

Description

I've implemented this for my 1.0 redmine, and it is very useful for team list thing.

Work like this:

skypei:michail_31415

Gets converted to:

```
<a href="skype:michail_31415?chat"></img></a>
```

Patch included:

```
/lib/redmine/wiki_formatting/textile/
```

Index: formatter.rb

- *Category set to Text formatting*

#2 - 2010-08-11 06:27 - Jean-Baptiste Barth

It needs some tests, plus we can't integrate it in 1.0.1 since we want to do a bugfix release. But maybe it could be included in 1.1.0.

#3 - 2014-05-23 22:08 - Andriy Lesyuk

Similar link can be rendered using the [custom macros feature](#) of WikiNG 1.0.0b.
