

Redmine - Feature #6211

Make WikiWords and acronyms as wiki links

2010-08-25 17:04 - Željko Trogrlić

Description	
To reduce work and troubles with sloppy users, it would be really helpful to introduce automatic links for:	
<ul style="list-style-type: none">• WikiWords• acronyms	
Examples:	
<ul style="list-style-type: none">• ClearCase• UDP	
That way users do not even have to think about links, they will appear by magic.
