Redmine - Feature #6223

Allow setting Task-Subtask relationship for existing issues

2010-08-26 11:01 - Michalis Miatidis

Target version:			
Resolution:	Duplicate		

Description

Redmine allows the creation of a subtask through the "Add" button in the "Subtasks" section of a task.

What about assigning an existing task as a subtask? Yes, why not? I tend to create the subtasks individually first, and then create their parent and assign them.

I think a drop down menu ala "related issues" is required

Is duplicate of Redmine - Feature #5484: Add new issue as subtask to an exist...	**Closed**	**2010-05-09**

History

#1 - 2010-08-26 11:33 - Felix Schäfer

- Status changed from New to Closed

- Resolution set to Duplicate

#5484 is (mainly) the same request, and has a patch to show the "parent issue" field in the issue form for new issues and in the "more" pane when updating issues.
