what is wrong with my redmine

i use InstantRails version 2.0

gem version 1.3.7

ruby version 1.8.7

rails version 2.3.4

the Perform the upgrade step i had run

can you help me , thanks !

- Status changed from New to Closed

- Resolution set to Invalid

1. You need Rails 2.3.5

2. You have configured your Redmine to use the PStore session store (probably in config/environment.rb), which is not available in Rails 2.3.5

anymore. Redmine >= 0.9 uses the cookie store by default. Please use the unencumbered source from Redmine.org
Also, please post any follow ups on this issue in the [forums](#) as this is not a bug of Redmine.
