

Redmine - Feature #6265

Indented / collapsible sub-issues in Roadmap

Description On the roadmap page, it would be great if there was some kind of visual indication of sub-issues, i.e. if Feature 101 has sub-issues 102, 103 and 104, then the roadmap would show: feature 100 -feature 101 -feature 102 -feature 103 -feature 104 feature 105 If this could also be collapsible (with a remembered "collapse all" tickbox somewhere), that would rock.

Hmm, should've previewed before posting.

The example should look like this:

feature 100

- feature 101

| - feature 102

| - feature 103

| - feature 104

feature 105

+1

This is the one thing that holds us from upgrading to 1.0.
