

Redmine - Defect #6270

diff coderay malformed in the "news" page

2010-09-02 08:40 - Nicolas Sebrecht

Status:	Closed	Start date:	2010-09-02
Priority:	Normal	Due date:	
Assignee:	Eric Davis	% Done:	100%
Category:	News	Estimated time:	0.00 hour
Target version:	1.0.2	Affected version:	
Resolution:	Fixed		
Description			
The diff rendering of coderay (using <code><code class="diff"></code>) is broken in the "news" view and doesn't have colored output. Select the entry of the news displays it right.			
I'm on redmine v1.0.0.

[The content of my post has been eaten, sorry.]

The diff rendering of coderay (using "code class="diff") in the news view is broken and doesn't color output. Select the news entry shows it right.

I'm on redmine v1.0.0.

#2 - 2010-09-02 21:14 - Holger Just

- File 6270-Add-scm.css-to-news-pages-to-allow-proper-syntax-hig.patch added

Confirmed on trunk. The pages are missing the reference to scm.css.

The attached patch fixes this. The patch is also available from <http://github.com/meineerde/redmine/tree/6270-fix-highlight-in-news>

#3 - 2010-09-03 11:04 - Nicolas Sebrecht

- Status changed from New to Resolved

- % Done changed from 0 to 100

Great! Bug fixed (tested).

Thanks.

#4 - 2010-09-03 12:00 - Felix Schäfer

- Status changed from Resolved to New

"Resolved" is only for changes that have been committed to trunk but not to a stable branch yet.

#5 - 2010-09-20 04:56 - Eric Davis

- Status changed from New to Resolved
- Assignee set to Eric Davis
- Target version set to 1.0.2
- Resolution set to Fixed

Added in [r4107](#).

#6 - 2010-09-20 05:51 - Eric Davis

- Status changed from Resolved to Closed

Merged into 1.0-stable for release in 1.0.2
