Redmine - Feature #6347
All members not being displayed in Projects -> Settings

2010-09-10 00:30 - Dave Martin

Status:	Closed		**Start date:**	2010-09-10
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Projects		**Estimated time:**	0.00 hour
Target version:				
Resolution:	Duplicate			

Description

There is a hard limit of 100 in the Principal.active.find call in 'app/views/projects/settings/_members.rhtml':

    <% principals = Principal.active.find(:all, :limit => 100, :order => 'type, login, lastname ASC') - @project.principals %>

which is a problem for us as we currently have 135 members. Please consider raising or removing this limit.

- Resolution set to Wont fix

Thanks for reporting. I don't think we will increase this limit because there are good reasons behind it.

But did you notice you have an autocomplete text field above it ? When you start typing anything in it, names are auto-completed accordingly... Do you see a better / more intuitive method to do that ?

- Resolution deleted (Wont fix)

Well I know that there is no pagination on this page and the limit won't be raised. But...
I would definitly agree that ther should be some kind of pagination. This way, the limit could be removed and the display would be still fast.

What do you think Jean-Baptiste?

- Tracker changed from Defect to Feature

It should be a feature request, if there should be some pagination.

- Status changed from New to Closed

- Target version deleted (Candidate for next major release)

- Resolution set to Duplicate

Indeed. I close this issue, as this issue is already fixed.

I set the relation as a duplicate, even if this issue is the one which was first - the other issue find it's way to the trunk.
