

Redmine - Feature #6375

Last updated by colum in issue list

2010-09-12 19:53 - Alexander F

Status:	Closed	Start date:	2010-09-12
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	Issues list	Estimated time:	0.00 hour
Target version:	3.4.0		
Resolution:	Fixed		
Description			
Hi, I think that it will very beneficial if there was an "Last updated by" column in the issue list, so that way users will be able to tell if the issue was updated or not without entering their mailbox.

Just a small correction - last updated by and not just "updated by".

Thanks.

#2 - 2010-09-16 02:45 - Mischa The Evil

- Subject changed from Updated by colum in issue list to Last updated by colum in issue list

Alexander F wrote:

Just a small correction - last updated by and not just "updated by".

I've modified the issue-properties to match the precise request.

#3 - 2011-11-18 11:40 - Victor Sheldeshov

Does anybody a patch or any workaround?

#4 - 2011-11-18 11:41 - Victor Sheldeshov

(Sorry!) **"Have"** anybody..."

In case if anyone still interested: [last_updated_by_column](#) plugin adds "Last Updated by" column to:

- Issues list (as extra column)
- My page (as a separate component)

#10 - 2013-07-14 01:15 - Mike M Pestorich

+1

The plugin above only partially works with Redmine 2.3.1.

- 1) The last updated by issues block when added "My Page" displays correctly but right clicking on an issue in it doesn't work.
- 2) On the main "/issues" page a "Last Updated By" column isn't available as an option in "Available Columns" such that it could be moved into "Selected Columns" so that it would be displayed.

#11 - 2013-07-15 13:26 - A. G.

Turns out Redmine 2.3.0 introduced changes that broke "Updated By" on ./issues page.
The [updated version](#) of the plugin takes that into account.

#12 - 2015-05-11 09:07 - M. B.

+1

Would be nice to have that in Redmine and not just as a plugin

#13 - 2015-11-06 09:04 - zar zar

This will be a very usefull feature. I hope it will be added soon!!!

Thanks

#14 - 2015-11-11 10:37 - Sunny Arge

We want to see lastly our edited issues (last updated by) and we can inform people if the issue stays on them so much time etc.
Thank you.

For the people that want this as a plugin, this one works for me:

https://github.com/neowit/redmine_last_updated_by_column.git

#20 - 2016-08-04 12:50 - Marius BĂLTEANU

- File `add_column_last_updated_by.patch` added

I made a patch (with tests) that implements the "Last updated by" as column in issues list. This patch should be applied after the patch from [#17720](#) because it uses the same local as filter "Last updated by".

The patch has one limitation: sorting issues after "Last updated by" column is disabled because I wasn't able to add the sorting query to take into account the "Users display format" setting (in the plugin mentioned above, the user format for this column is hard-coded). Maybe a Redmine contributor can solve this limitation, but in my opinion the patch is useful also with this limitation.

#21 - 2016-08-04 12:55 - Marius BĂLTEANU

- File `add_column_last_updated_by_v2.patch` added

Added a new version (`add_column_last_updated_by_v2.patch`) that does not contain a unnecessary change presented in the first patch.

#22 - 2016-12-24 09:09 - Go MAEDA

- Has duplicate Feature #11919: Issues list needs some kind of "last-modified-by" mark. added

#23 - 2017-01-17 05:41 - Go MAEDA

- Has duplicate Feature #5294: Add a "last comment by" column to the issues list added

#24 - 2017-01-22 12:48 - Marius BĂLTEANU

- File `6375_add_last_updated_by_column_r16248.patch` added

I've uploaded a new version of the patch:

- it cleanly apply on the current trunk
- it checks for journal visibility
- fixes the limitation from the previous version of the patch (sorting by "Last updated by" column works now).

Unfortunately, I didn't do any performance test.

I think that it'll be great to deliver this issue along with [#17720](#) and [#1474](#) (there are at least 5 duplicate issues).

#25 - 2017-01-22 13:11 - Go MAEDA

Marius, thank you for updating the patch. I hope that this feature will be included in 3.4.0
But a test fails in my environment. Could you check the problem?

```
$ ruby test/unit/query_test.rb
(snip)
```

```
1) Failure:
QueryTest#test_query_with_last_updated_by_column [test/unit/query_test.rb:1301]:
--- expected
+++ actual
@@ -1,1 @@
-["User", "String", "String", "User", "String", "String", "String"]
+["User", "User", "String", "String", "String", "String", "String"]

186 runs, 527 assertions, 1 failures, 0 errors, 0 skips
```

My environment is as follows:

```
Environment:
  Redmine version      3.3.2.devel.16248
  Ruby version         2.3.1-p112 (2016-04-26) [x86_64-darwin15]
  Rails version        4.2.7.1
  Environment          development
  Database adapter     SQLite
```

#26 - 2017-01-22 14:23 - Marius BĂLTEANU

- File `6375_add_last_updated_by_column_r16248_v2.patch` added

Thanks Go MAEDA for testing the patch. I've attached the fixed version. The problem was generated by the data fixtures (journals weren't loaded by query_test.rb).

Jean-Phillipe Lang, I saw in [r16228](#) that you preferred to generate the test data directly in the tests. It is better than using the existing fixtures?

#27 - 2017-01-26 04:41 - Go MAEDA

Thank you for the patch on [#6375#note-26](#) but it still fails.

```
$ ruby test/unit/query_test.rb
(snip)

1) Failure:
QueryTest#test_query_with_last_updated_by_column [test/unit/query_test.rb:1301]:

```

#28 - 2017-01-26 11:04 - Marius BĂLTEANU

- File 6375_add_last_updated_by_column_r16248_v3.patch added

Thanks again for testing the patch. Something is wrong with my development instance.

I've attached a new version which passed the tests on both mysql and sqlite3 databases.

```
notroot@b8ae13776d3c:/work$ RAILS_ENV=test rake db:drop db:create && ruby test/unit/query_test.rb
/usr/local/bundle/gems/htmlentities-4.3.1/lib/htmlentities/mappings/expanded.rb:465: warning: duplicated key a
t line 466 ignored: "inodot"

t line 466 ignored: "inodot"
/usr/local/bundle/gems/htmlentities-4.3.1/lib/htmlentities/mappings/expanded.rb:465: warning: duplicated key a
t line 466 ignored: "inodot"
Run options: --seed 496

# Running:

.....

Finished in 18.171939s, 10.2356 runs/s, 29.0008 assertions/s.

186 runs, 527 assertions, 0 failures, 0 errors, 0 skips
```

#29 - 2017-01-29 15:29 - Go MAEDA

- File 6375-screenshot.png added

- Target version set to 3.4.0

Thanks to Marius, the patch works fine as expected and passed all tests.
Ideally this feature should be included in 3.4.0 along with [#17720](#).

#30 - 2017-03-05 08:46 - Jean-Philippe Lang

- Status changed from New to Closed
- Assignee set to Jean-Philippe Lang
- Resolution set to Fixed

Feature is added, thanks for the patch Marius. I've reworked the proposed changes a bit:

- Issue#last_updated_by returns nil instead of an empty string when there's no updates
- Issue.load_visible_last_updated_by loads only the last journals instead of loading all of them
- More robust unit test (I had random test failure)
- Functional tests

#31 - 2017-04-02 07:08 - Go MAEDA

- Category changed from Issues to Issues list

#32 - 2017-06-27 13:51 - Shreyas Moolya

- File paint.png added

For the people that want this as a plugin, this one works for me:

https://github.com/neowit/redmine_last_updated_by_column.git

In my case it didn't work.
'My Page' gives error

#33 - 2017-07-14 04:52 - Go MAEDA

- Has duplicate Feature #5791: Set latest journal(log) id when an issue updated (in a issues table) added
