TemplateError when viewing gantt chart from parent project

2010-09-14 05:49 - ChunChang (Nagaharu) Lo

Status:	Closed	Start date:	2010-09-14
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Gantt	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Duplicate		
Description			
Not every parent project has this error, I don't know the difference between them.			
If the error happened in one parent project, the error message is always like the following one:

- Category set to Gantt

- Affected version (unused) set to devel

Thanks, I'll take a look at it. I recently rewrote the Gantt module so there are a few bugs that still need to be found and fixed.

#2 - 2010-09-14 14:38 - Henrik Ammer

I don't know if this is related but it happens to me on one of my installs of redmine (and also complains on line 155 of show.html.erb).

Since I run that server in devmode I get all these goodies in my browserwindow. :)

The same problem appears in my production Redmine installation from trunk(svn revision 4084).

Small remark:

- if the project doesn't have any version, you can see such backtraces
- if the project have at least one verion -> all right

Hmm... this is not true in my site. Some parent projects that have no version at all display gantt chart correctly.

Hi, as far as I could test this morning on a fresh install (build yesterday), this seems to be strongly related to the issues.

A single "badly defined" issue can produce this error, in my case I identified some assigned issues with the deadline information missing, resulting on this [#155](#) error. I guess it's somewhat coming from the `g_width` gauging ;)

Sorry I can't help any further, I'm pretty new to Redmine, and please excuse my poor english.

This happens when `project.due_date` can not be calculated. This can be caused by none of the issues having a due date, and/or none of the versions having a due date.

This is a clear duplicate of issue [#6350](#) indeed. Closed this issue as such.
