

Redmine - Defect #6438

Autologin cannot be disabled again once it's enabled

2010-09-20 12:44 - Anonymous

Status:	Closed	Start date:	2010-09-20
Priority:	Low	Due date:	
Assignee:	Felix Schäfer	% Done:	0%
Category:	Administration	Estimated time:	0.00 hour
Target version:	1.0.3	Affected version:	1.0.1
Resolution:	Fixed		
<b>Description</b> <p>We have enabled the AutoLogin feature so that people don't have to enter their credentials each time they go to Redmine. When playing with it, I realized that it cannot be deactivated again. It save the settings page without giving any error but does not change the field. I also checked and it really is not deactivated.</p> <p>It is possible to change the lease time though.</p> <p>See also <a href="#">this discussion</a></p>

Revision 4306 - 2010-10-30 00:28 - Jean-Baptiste Barth

Fixed: disabling autologin not persisted. #6438

Contributed by Felix Schäfer

History

#1 - 2010-09-29 22:00 - Felix Schäfer

- Target version set to 1.0.3

JB, Eric: the commit for this is here: <http://github.com/thegcat/redmine/commit/7ab0baa96a93f0c50d0bc99cefc52e6fdcba1f4>

The change is small: it forces the select list to return 0 instead of " for "autologin disabled". The problem with having an empty string returned for autologin is that autologin is defined as an int in the settings and thus checked for numericality, which fails for the empty string.

Jan, if you feel up to applying a patch to your installation, here's the diff:

```
diff --git a/app/views/settings/_authentication.rhtml b/app/views/settings/_authentication.rhtml

Many thanks for your efforts! I will wait for that version, it's not really a work hindering bug, I just noticed it and thought it might be worth reporting. Thanks for being so superquick.

#3 - 2010-10-30 00:22 - Jean-Baptiste Barth

- Status changed from New to Resolved

- Resolution set to Fixed

Applied in [r4306](#), thanks.

**#4 - 2010-11-01 01:22 - Eric Davis**

- *Status changed from Resolved to Closed*

Merged into 1.0-stable for release in 1.0.3
