

Redmine - Defect #6561

cannot update notes as explained in REST API example

2010-10-03 07:26 - Evgeny Ratnikov

Status:	Closed	Start date:	2010-10-03
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	REST API	Estimated time:	0.00 hour
Target version:		Affected version:	1.0.2
Resolution:	Invalid		

Description

I try to update notes for issue 3888. I am using JSON only because there is an example with changing notes in Wiki: [Rest_Issues](#). I use curl:

```
curl -v -H "Content-Type:text.json" -X PUT --data "@/tmp/3888.json" -u evgeny:passwd http://redmine.komtex/issues/3888.json
```

File /tmp/3888.json contains:

```
{
  "issue": {
    "subject": "subject123"
  },
  "notes": "Changing the subject"
}
```

In my redmine log I see:

```
Processing IssuesController#update to json (for 127.0.0.1 at 2010-10-03 08:51:24) [PUT]
Parameters: {"format"=>"json", "action"=>"update", "id"=>"3888", "controller"=>"issues"}
Completed in 49ms (View: 0, DB: 8) | 200 OK [http://localhost/issues/3888.json]
```

curl output is:

```
* About to connect() to redmine.komtex port 80 (#0)
* Trying 10.1.90.220... connected
* Connected to redmine.komtex (10.1.90.220) port 80 (#0)
* Server auth using Basic with user 'evgeny'
> PUT /issues/3888.json HTTP/1.1
> Authorization: Basic ZXZnZW55OmZvc19yZWRTaW5l
> User-Agent: curl/7.20.1 (i686-pc-linux-gnu) libcurl/7.20.1 OpenSSL/0.9.8n zlib/1.2.3 libidn/1.5
> Host: redmine.komtex
> Accept: */*
> Content-Type:text.json
> Content-Length: 88
>
< HTTP/1.1 200 OK
< Server: nginx/0.7.65
< Date: Sun, 03 Oct 2010 04:51:24 GMT
< Content-Type: application/json; charset=utf-8
< Connection: keep-alive
< X-Runtime: 49
< Content-Length: 1
< Cache-Control: private, max-age=0, must-revalidate
< Set-Cookie: _redmine_session=BAh7BjoPc2Vzc2lvd19pZC1lYzQ1ZmUzNjUwNzRkNDJjMDgwZGFjOTk4MjZhOTU1ZWY%3D--12171959dac14b7ae676d5819806dccb1d2aead6; path=/; HttpOnly
<
* Connection #0 to host redmine.komtex left intact
```

```
* Closing connection #0
```

Issue 3888 is left unchanged: it has old subject and no new notes. The only thing changed is the phrase: "Updated 1 minute ago".

mysql --version:

```
mysql Ver 14.14 Distrib 5.1.41, for debian-linux-gnu (i486) using readline 6.1
```

ruby script/about fails because of:

```
/home/trac/redmine-1.0.2/vendor/rails/activerecord/lib/active_record/connection_adapters/mysql_adapter.rb:589:in `real_connect': Access denied for user 'root'@'localhost' (using password: NO) (MySQL::Error)
```

History

#1 - 2010-11-01 15:59 - Eric Davis

- Status changed from New to 7
- Assignee set to Eric Davis

I'm going to look into the issues and projects APIs soon. I've heard a lot of reports that it's not working properly.

#2 - 2010-11-27 00:40 - Eric Davis

- Assignee deleted (Eric Davis)

I am stepping down from working on Redmine. If someone else is interesting in working on this issue, feel free to reassign it to them.

Eric Davis

#3 - 2010-12-10 12:19 - Jean-Philippe Lang

- Status changed from 7 to Closed
- Resolution set to Invalid

Well, the application log above shows that the problem is not on the API side. Params are not recognized by Rails.

Evgeny, use -H "Content-Type:application/json" and it will work much better.

#4 - 2012-05-15 17:30 - gourav swarnkar

Guys, any work around for this issue.
Please update.

#5 - 2012-05-16 07:49 - gourav swarnkar

- Status changed from Closed to Reopened
- Assignee set to Azamat Hackimov

Guys Please help me I am in big trouble.
Any fix for the notes updation.

#6 - 2012-05-16 10:21 - Etienne Massip

- Status changed from Reopened to Closed
- Assignee deleted (Azamat Hackimov)

This is not an actual issue; once Content-Type:application/json fixed, the command passed.

#7 - 2017-03-20 09:24 - Fazil Vadakkumpadath

May be you should move "notes" into "issue" block.
