

## Redmine - Defect #6671

In version detail page of a project that has sub-projects when you click on a category of a sub-project it opens a wrong page

2010-10-14 13:41 - Ehsan Afzali

<b>Status:</b>	New	<b>Start date:</b>	2010-10-14
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>		<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Affected version:</b>	
<b>Resolution:</b>			
<b>Description</b>			
<p>In the version detail page of project with sub-projects for example '<a href="http://redmine.example.org/projects/parent-project/versions/1">http://redmine.example.org/projects/parent-project/versions/1</a>' in the 'Issues by category' section it shows all categories of sub projects. But they link to the parent project issue list instead of their own projects.</p> <p>For example if you have a category 'A' for version '1' of Project 'sp1' that is sub-project of 'parent-project' the links of 'A' hyperlink in 'Issues by category' is '<a href="http://redmine.example.org/projects/parent-project/issues?category_id=1&amp;fixed_version_id=1&amp;set_filter=1">http://redmine.example.org/projects/parent-project/issues?category_id=1&amp;fixed_version_id=1&amp;set_filter=1</a>' instead of '<a href="http://redmine.example.org/projects/sp1/issues?category_id=1&amp;fixed_version_id=1&amp;set_filter=1">http://redmine.example.org/projects/sp1/issues?category_id=1&amp;fixed_version_id=1&amp;set_filter=1</a>' because the 'parent-project' does not have 'A' category with id '1' and so it shows all issues for that version instead of showing just issues of that category.</p>			

### History

#1 - 2010-10-14 13:43 - Ehsan Afzali

I've forgot to say that the version 1 must be shared with the sub-projects. At least I've seen this on this condition.
