<b>Resolution:</b>	
<b>Description</b> Hello,  I think about issue templates. Say, one could create a set of templates and use them when creating new issue. Such a template may have all or some of the fields filled with predefined data. Then users may create real issues faster and with similar data and format.  Par exemple, 'service request'. This template would be assigned to 'Service' tracker, the description would have some predefined requisites and so on.  Ivan

### History

#### #1 - 2011-02-16 07:24 - Deon Joubert

- Status changed from New to Resolved

See [#5431](#)

#### #2 - 2011-02-16 07:26 - Deon Joubert

Oeps [#5341](#)

#### #3 - 2012-01-18 14:13 - Terence Mill

There is a plugin for wiki templates. The fetaure is pretty near and code can be reused or even just advanced to it.

#### #4 - 2012-01-18 14:14 - Terence Mill

BTw. this shall be core feature

#### #5 - 2012-01-18 14:21 - Etienne Massip

- Category set to Issues

- Status changed from Resolved to New

#### #6 - 2014-12-02 10:45 - Go MAEDA

- Related to Feature #18428: pre-defined issue subjects added

#### #7 - 2016-09-07 14:31 - Toshi MARUYAMA

- Has duplicate Feature #1138: Issue templates added

**#8 - 2016-09-07 15:11 - Toshi MARUYAMA**

- Related to Feature #643: Issue description templates added

**#9 - 2016-09-07 15:11 - Toshi MARUYAMA**

- Related to Feature #11647: Create Issue Structure Templates added

**#10 - 2017-01-25 15:41 - Ivan Cenov**

- Status changed from New to Resolved

There is a plugin, [https://github.com/akiko-pusu/redmine\\_issue\\_templates](https://github.com/akiko-pusu/redmine_issue_templates) which is enough good.

Please close this issue.

**#11 - 2017-02-03 10:18 - Go MAEDA**

- Status changed from Resolved to New

"Resolved" status is used by committers.

And I think that this issue should be kept open because it would be great if the feature is included in Redmine core.

Hi, all, and thank you so much to all the contributions to the long term success of Redmine.

I've been maintaining tiny plugin introduced above, but personally, I think it would be so nice if this feature is implemented in Redmine itself :)

The plugin [https://github.com/akiko-pusu/redmine\\_issue\\_templates](https://github.com/akiko-pusu/redmine_issue_templates) is already archived .... so it would be great to have its functionality in the core Redmine....

Agileware has taken over redmine\_issue\_templates plugin(Redmine5.0 supported).

please see [https://github.com/agileware-jp/redmine\\_issue\\_templates](https://github.com/agileware-jp/redmine_issue_templates)
