Description	
<p>At the moment, there's no way to delete a user once he/she is registered.</p> <p>It would be nice if there were better ways to deal with deprecated/old/spam users, instead of just activating/locking them. I.e.</p> <p>Users who haven't posted anything</p> <ul style="list-style-type: none">- Should be safe to delete these users <p>Users who have posted something</p> <ul style="list-style-type: none">- Prompt to remove all posts by the user (on delete cascade) <p>However, some organisations may want to keep a log of everything (prevent deletion). In that case, this can perhaps be an option that only an Administrator can set.</p>

*However, some organisations may want to keep a log of everything (prevent deletion).
In that case, this can perhaps be an option that only an Administrator can set.*

I think so.
