Associated revisions

Revision 4389 - 2010-11-09 20:44 - Jean-Philippe Lang

Fixed: Trunk not working with i18n gem 0.4.2 (#6784).

History

#1 - 2010-11-01 13:08 - Felix Schäfer

- Priority changed from High to Normal

#2 - 2010-11-02 14:11 - Holger Just

If you revert the workaround for i18n 0.4.1 in [r4183](#), everything works fine again with 0.4.2.

#3 - 2010-11-02 14:21 - Holger Just

The "fixing" commit is probably [this one](#). Sadly, I found no immediate solution for supporting both versions. Maybe we need to build a custom switch or patch for 0.4.1...

#4 - 2010-11-02 14:30 - Grigory Petrov

Maybe just place 'if gem version < xxx' code so both 'fixing' commit and a normal code will work according to i18n gem version? Unfortunately, i'm not very good at ruby world and don't know how it's supposed to fight dll hell here :).

#5 - 2010-11-04 12:40 - Felix Schäfer

- Target version set to 1.0.4

This <https://github.com/thegcat/redmine/commit/00ef3004120035095c9cd11aba65ebd648160fe6> should make i18n 0.4.{1,2} happy with the patch.

#6 - 2010-11-05 23:05 - Holger Just

I can confirm that the patch by Felix works with i18n 0.4.(1|2), 0.3.7 and no i18n gem at all.

[Eric Hulser](#), could you please commit this one soon? We get many requests by people falling over i18n 0.4.2 currently.

[Felix Schäfer](#), thanks for providing the solution.

#7 - 2010-11-08 16:09 - Alex Bevilacqua

I had the same problem this morning and Felix's patch worked beautifully. This should probably be pushed sooner rather than later to avoid a landslide of issue reports ...

#8 - 2010-11-09 20:39 - Jean-Philippe Lang

- Status changed from New to Resolved

- Resolution set to Fixed

Fixed in [r4389](#) using a slightly different patch to avoid another failure next time they change the method signature.

#9 - 2010-11-09 20:50 - Jean-Philippe Lang

- *Subject changed from Trunk not working with i18n gem 0.4.2 to Redmine not working with i18n gem 0.4.2*
- *Status changed from Resolved to Closed*
- *Affected version (unused) changed from devel to 1.0.3*
- *Affected version set to 1.0.3*

Merged in stable branch.

#10 - 2011-04-15 18:25 - Etienne Massip

- *Category set to I18n*
