<b>Category:</b> Time tracking	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b>	
<b>Resolution:</b> Fixed	
<b>Description</b>	
Hi Sometimes it is practical for accounting purposes to be able to see all timelog entries that <ul style="list-style-type: none"><li>- occur from the beginning of time up until (but not including) the current month, and</li><li>- has not already been processed (indicated by a flag).</li></ul> Attached is a patch which implements the first part of such a filter, allowing the user to see all entries before the current month.
