<b>Description</b>			
<p>I have reported #1189 over two years ago. To this day, redmine keeps bombarding me with "+1" emails, without allowing me to opt out from the notifications. Really, I'm no longer interested in this bug - I no longer work for the company I reported it for.</p> <p>There really needs to be a "stop notifying the reporter about this bug" switch.</p>

- Target version set to Candidate for next major release

We could simply add author to watchers list at issue creation so that author can unwatch anytime ?

##### #3 - 2011-03-23 14:32 - Anton Nepomnyaschih

It would be cool to be able to change author of a ticket (like in JIRA).

##### #4 - 2011-03-23 15:04 - Etienne Massip

There is already an issue for this (#1739).

##### #5 - 2011-03-24 10:23 - Leszek Ciesielski

#1739 is about changing the owner (like Anton suggested), I just want to no longer receive fraking notifications (there is noone to assign ownership to).

I would delete the damn ticket if I could.

Well, I was answering to Anton, sorry for the misunderstanding.

I think the proposed behavior is straightforward.
