

Redmine - Defect #6969

Less-than sign in issue description and comments are not escaped

2010-11-24 18:51 - Magnus Henoeh

Status:	Reopened	Start date:	2010-11-24
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	Text formatting	Estimated time:	0.00 hour
Target version:	Candidate for next major release	Affected version:	1.0.3
Resolution:	Fixed		

Description

When an issue description or comment contains a less-than sign (<), this sign is output verbatim in the issue page, instead of being escaped with ampersand-"lt"-semicolon. This causes the issue details page to be invalid XHTML, which is contrary to the page's doctype, and makes it impossible to read the page with an XML parser. I created [an issue on the demo site](#) to demonstrate the problem.

To reproduce, run xmllint URL-OF-ISSUE-PAGE, like this:

```
$ xmllint http://demo.redmine.org/issues/38181
```

```
http://demo.redmine.org/issues/38181:166: parser error : StartTag: invalid element name
```

```
<p>Hm: <</p>
```

```
^
```

```
http://demo.redmine.org/issues/38181:241: parser error : StartTag: invalid element name
```

```
mg alt="Comment" src="/images/comment.png?1286930539" /></a></div><p>And this? <
```

```
^
```

```
http://demo.redmine.org/issues/38181:330: parser error : Entity 'copy' not defined
```

```
Powered by <a href="http://www.redmine.org/">Redmine</a> &copy; 2006-2010 Je
```

```
^
```

The third error is a false positive (xmllint doesn't know XHTML entities), but the first two errors are symptoms of this problem.

Merged r14863 (#6969).

Revision 14867 - 2015-11-11 08:39 - Jean-Philippe Lang

Adds a test for #21202 (#6969).

History

#1 - 2015-10-01 10:34 - Go MAEDA

- *File issue6969_test_escaping.diff added*
- *Category changed from Issues to Security*
- *Status changed from New to Confirmed*
- *Private changed from No to Yes*

Thank you for reporting this issue.

Textile formatter in the latest trunk (r14634) is still affected.

Here is a test to catch this issue: attachment:issue6969_test_escaping.diff

#2 - 2015-10-22 09:11 - Toshi MARUYAMA

- *Target version set to 2.6.8*

#3 - 2015-11-07 11:21 - Jean-Philippe Lang

- *Category changed from Security to Text formatting*
- *Status changed from Confirmed to Resolved*
- *Assignee set to Jean-Philippe Lang*
- *Private changed from Yes to No*
- *Resolution set to Fixed*

Fixed in r14812.

#4 - 2015-11-08 09:51 - Jean-Philippe Lang

- Status changed from Resolved to Closed

#5 - 2015-11-11 08:33 - Jean-Philippe Lang

- Related to Defect #21202: Left aligned sign in tabular is not worked since applying #6969 added

#6 - 2015-11-11 08:39 - Jean-Philippe Lang

- Status changed from Closed to Reopened

- Target version changed from 2.6.8 to Candidate for next major release

Fix reverted, see #21202.
