**Description**

Strange thing. My site was working fine, not sure when it starts, i cannot add new member into project(i just found this issue because a new project is created today).

Here is what i got: on project members page, i checked the checkbox of target users, then click add button. No user is added to left side list. and the checkbox is un-checked. Seems nothing happen.

Would be appreciated if i can get your response soon. Thanks,

Johnson

- Status changed from New to Closed

- Resolution set to Invalid

You need to select member(s) *and* the role(s) they should be assigned (the role list is beneath/at the end of the user list).
