Redmine - Feature #6975

Autocalculate the issue done ratio only for certain issue status

2010-11-25 11:32 - Pedro Calvo

Status:	New	**Start date:**	2010-11-25
Priority:	Low	**Due date:**	
Assignee:		**% Done:**	0%
Category:	Issues	**Estimated time:**	0.00 hour
Target version:			
Resolution:			

Description

Though we need to use the % done field in Redmine, there is no reason not to have it work automatically for certain statuses. For example a "New" issue could be set automatically to 0% and a "Resolved" issue could be set to 100% done. The user could always change pertentages if needed...

Moreover, that would be an excellent way of avoiding 0%-closed issues.

Maybe the Issue Done Ratio Both plugin (provides a base to extend it to) fit your specific need. It might be worth looking at it...

This feature was implemented in r3151.
Isn't it what you need?

Mischa The Evil is right: I was talking about the same functionality provided by the Issue Done Ratio Both plugin

Issue Done Ratio Both wrote:

> Normally, an Issue can either have a "Done %" field that you
> set manually, or it can be set automatically by certain issue
> statuses (closed, etc). But not both.

> We want people to be able to set their "% Done" themselves while
> they work (if they want), but when they close the ticket,
> it should be marked 100% done.

> This provides another option in Settings > Issue Tracking for
> allowing both types.

> The "% Done" for an issue will only be automatically updated if
> you set it to a status for which you have specified a default
> "% Done" value. (Meaning you can leave it nil and it shouldn't
> change.)

+1

#5 - 2015-11-01 11:53 - Jens Krämer

Since the plugin mentioned above does not seem to exist any more, I built a new one
