I found these errors in my logs but I'm not able to reproduce. Looks like it was introduced after a change on redmine.org.
Can you retry please?

Tried again, am still getting the same Error 500.

Clicking on Preview reply also results in the same Error 500.

I'm getting it, too in the last few days, even about one hour ago (see [#7021](#)).

- Status changed from New to Closed
- Resolution set to Fixed

Problem is now fixed, thanks for pointing this out.
