<b>Target version:</b>	<b>Affected version:</b>
<b>Resolution:</b> Fixed	

**Description**

updated Redmine code to the latest trunk version ([r4460](#)) and can't open the project page anymore:

URL: <http://172.17.10.37:3000/projects/rw?jump=welcome>

Internal error

An error occurred on the page you were trying to access.  
If you continue to experience problems please contact your redMine administrator for assistance.  
Back

Processing ProjectsController#show (for 172.17.10.62 at 2010-12-03 10:49:56) [GET]  
Parameters: {"jump"=>"welcome", "action"=>"show", "id"=>"rw", "controller"=>"projects"}

Rendering projects/show

ActionView::TemplateError (No builder for format ) on line #1 of app/views/projects/show.apit:

```
1: api.project do
2:   api.id           @project.id
3:   api.name         @project.name
4:   api.identifier   @project.identifier
```

## History

### #1 - 2010-12-04 15:03 - Jean-Philippe Lang

I can't reproduce this problem, but it looks like the api template is used instead of show.rhtml to render the html response.

Can you try to rename show.rhtml (in app/views/projects/) to show.html.erb and restart?

**#2 - 2010-12-04 18:35 - Jean-Philippe Lang**

This should be fixed by [r4466](#). Please, confirm.

**#3 - 2010-12-04 18:46 - Alex Last**

Thanks a lot, [r4466](#) solves the problem.

**#4 - 2010-12-04 19:09 - Jean-Philippe Lang**

- *Status changed from New to Closed*

- *Resolution set to Fixed*

Thanks for the feedback.
